

Math Camp

One week only! Limited Space!

Students will review skills that were learned throughout this school year and begin to learn new skills that they will need to be successful in the next school year. We will work daily on computation skills, problem solving, and math concepts all while having fun. Student will need to bring their summer math book with them to class.

Who: Current 3rd and 4th Graders

When: June 9th-13th, 2008
